## SEPTEMBER 2021

### IMPORTANT

In order for us to complete our annual gas system maintenance and safety checks, including meter and related equipment inspections, our staff requires unrestricted access to the equipment at all times.

Unrestricted access ensures gas system safety, your safety, and our staff's safety.

### PRIMARY / SECONDARY CONSTRUCTION

We are fast approaching our deadline for construction requests in **mid-September**. Our construction season is in full swing, and our staff is busy routing, planning and installing gas services.

If you are considering any of these construction projects, please contact our office as early as possible. The earlier we receive requests, the better we are able to accommodate your schedule and timing. This will also allow us to plan the work in conjunction with our regular gas system maintenance work.

### GENERAL MANAGER

Cochrane Lake Gas Co-op Ltd. is pleased to welcome our new general manager, Brad Mason. Brad has over 25 years of leadership and management experience, including as a fire and EMS chief, town manager, and for the last six years as the general manager of a neighbouring large rural water co-op. He is familiar with the co-op structure and the importance of the cooperative principles and looks forward to, with our staff, continuing to provide you with excellent customer service. Please feel free to contact him at our office anytime.

## LAUGHING GAS

I gave up my seat to a blind person on the bus. That's how I lost my job as a bus driver.

In Ancient Rome, there were 4 types of poison. Poisons I, II, III would all kill you with varying degrees of pain. However, Poison IV would just make you really itchy.

My wife has this weird OCD where she arranges the dinner plates by the year they were bought. It's an extremely rare dish order.
