CONSTRUCTION SEASON

Our construction season is ramping up and we anticipate another busy year. If you know of someone requiring a new primary service install, please advise them that our deadline for construction requests is September 15, 2022. Due to supply chain issues we are currently not doing any secondary gas line installs, but may be able to assist you with alterations to primary services.

NATURAL GAS APPLIANCE SAFETY

Well maintained natural gas appliances are less likely to break down and less likely to create dangerous carbon monoxide levels inside your home. Have your appliances inspected annually by a registered heating, ventilation and air conditioning (HVAC) contractor to maintain peak efficiency and ensure they are operating safely. (Please note that Cochrane Lake Gas Co-op does not perform these services.)

General Appliance Safety:

Ensure your fuel burning appliances such as furnaces, boilers, water heaters and fireplaces have adequate ventilation.

- Keep the area around your appliance clear. Keep any items at least 24" away from your natural gas appliances.
- Burner flames that are yellow rather than blue could mean a build up of carbon monoxide. Shut off your appliance and call your heating contractor. Never use your stove or oven to heat a room.

If you're buying a new or used natural gas appliance, keep in mind they must meet the certification standards of the Canadian Standards Association (CSA). Look for the CSA logo on an appliance's rating plate or in its instruction manual.

LEAK DETECTION / LINE SURVEYS

Our contractor Gas Recon are walking all the gas lines in our Tap 3 and Tap 7 areas. Tap 3 covers areas west of Grand Valley Road, including Cottage Club, Ghost Lake Village, Highway 40 (including Waiparous and Benchlands), and Jamieson Road. Tap 7 includes areas between Water Valley and Cremona.

Gas Recon will endeavour to contact land owners prior to accessing properties. They will be carrying identification and their vehicles will be marked.

PRE-AUTHORIZED WITHDRAWAL AND E-BILLING

In our continued effort to save time, money and paper, we encourage you to sign up for **paperless billing** or **pre-authorized withdrawal**. Please contact our office if you wish to enroll for these services.

Additionally, we can register you to receive occasional emailed updates and information.

CONTACT INFORMATION

Please help us keep you informed! If your address, phone number(s), email address(es), cell phone number(s) have changed, please call or email us with the updated information. We are finding that many people are disconnecting their landline phone services, and may be left without any way to contact them. If you're not sure if we have your current contact information, please call us and we will be happy to check and update your account.

LAUGHING GAS

What did the janitor say when he jumped out of the closet? Supplies!

Singing in the shower is fun until you get soap in your mouth. Then it's a soap opera.

What do a tick and the Eiffel Tower have in common? They're both Paris sites.

I thought the dryer was shrinking my clothes. Turns out it was the refrigerator all along.
