ACCESS TO THE  
EQUIPMENT AT ALL TIMES.**

**UNRESTRICTED ACCESS  
ENSURES GAS SYSTEM  
SAFETY, YOUR SAFETY,  
AND OUR STAFF'S  
SAFETY**

## **NATURAL GAS REBATE PROGRAM**

Albertans are getting extra help with their natural gas utility bills this winter. From October 1, 2022 to March 31, 2023, most Albertans will receive a rebate from the Government of Alberta if any of Alberta's regulated default supply providers' natural gas price is above \$6.50 per gigajoule (GJ), regardless of whether our rates are lower for the month.

The rebate applies to an Alberta residence or Alberta company with a natural gas usage under 2,500 GJ per year (a typical Alberta house uses around 120 GJ of natural gas per year).

We will automatically process the rebate on your monthly bill if the rebate is in effect. You will see a line on your bill stating "GoA Utility Commodity Rebate Program".

For the month of October 2022, Alberta Utilities Commission posted the regulated utilities rates, which were below the \$6.50; therefore, there is no rebate for October.

## **SEPTEMBER BILLING ERROR**

Our August rates were mistakenly entered with a September 1 effective date, and when the bills for August's consumption were run, the system defaulted back to the July rates. The net result was that we charged \$1.47/GJ more than what the rates should have been. To correct this error, we have adjusted the September rates down by the \$1.47, which has the added benefit to the customer in that September's consumption will be higher than August's consumption. We apologise for any confusion and inconvenience this may have caused.
