FEDERAL FUEL CHARGE INCREASE – APRIL 1, 2024

Effective April 1, 2024, the Federal Fuel Charge will increase to \$4.10/GJ. The current price of the \$65 per tonne (of carbon dioxide equivalent (CO₂e) emissions) for heating fuels will increase on April 1, 2024 to \$80 per tonne. These rates are prescribed by the Government of Canada on an increasing scale and are scheduled to increase to \$95 per tonne in April 2025.

We are required to charge these rates as per the federal Greenhouse Gas Pollution Pricing Act. All fees charged under this Act are remitted directly to Revenue Canada.

The new rate will be applied to your bill for natural gas consumed beginning April 1, 2024.

ANNUAL METER CHANGES/RECERTIFICATIONS

Our staff are currently working on routine meter change outs. Any meter with a seal expiry date of 2023 will be changed out for recertification or removal of service. We will be working with you to schedule these appointments to allow us to relight any appliances as necessary. To eliminate the need for homeowner presence for appliance relights, we are installing meter bypass valves for future meter changes.
