FEDERAL FUEL CHARGE INCREASE – APRIL 1, 2025

Effective April 1, 2025, the Federal Fuel Charge will increase to approximately $4.75/GJ. The current price of the $80 per tonne (of carbon dioxide equivalent (CO_2e) emissions) for heating fuels will increase by $15 on April 1, 2025 to $95 per tonne. These rates are prescribed by the Government of Canada on an increasing scale.

We are required to charge these rates as per the federal Greenhouse Gas Pollution Pricing Act. All fees charged under this Act are remitted directly to Revenue Canada.

The new rate will be applied to your bill for natural gas consumed beginning April 1, 2025.

ANNUAL METER CHANGES/RECERTIFICATIONS

Our staff are currently working on routine meter change outs. Any meter with a seal expiry date of 2024 will be changed out for recertification or removal of service. We will be working with you to schedule these appointments to allow us to relight any appliances as necessary. To eliminate the need for homeowner presence for appliance relights, we are installing meter bypass valves for future meter changes.

METER SITE INSPECTIONS

Our staff is also busy with meter site inspections and regulator maintenance in a number of locations throughout the franchise.

As always, your cooperation in allowing unobstructed access to the meter and related infrastructure is essential in our operators' safety, as well as your safety.

PRE-AUTHORIZED WITHDRAWAL AND E-BILLING

In our continued effort to save time, money and paper, we encourage you to sign up for ***paperless billing*** or ***pre-authorized withdrawal***. Please contact our office if you wish to enroll for these services.

Additionally, we can register you to receive occassional emailed updates and information.

LAUGHING GAS

Why is 'dark' spelled with a K and not a c? Because you can't see in the dark.

Prison is just one word to you, but for some people, it's a whole sentence.

I'm trying to organize a hide and seek tournament, but good players are hard to find.
